

# **Wintry Glo Restoration - Required Restoration Documents**

## **Work Authorization Form**

This form grants Wintry Glo Restoration permission to perform water restoration services on the property listed. It outlines the scope of work, estimated timeline, and confirms the client's consent.

## **Water Damage Assessment Report**

A detailed evaluation of the extent and source of water damage, including inspection notes, affected areas, initial moisture readings, and photos if applicable.

## **Drying Log Sheet**

Daily monitoring report documenting temperature, humidity, and moisture levels during the drying process. Includes equipment usage and progress toward drying goals.

## **Certificate of Completion**

Issued upon final inspection. Confirms that all contracted work has been completed, the area has met industry-standard dryness levels, and the property has been restored.
